CO2 emissions

Product: sugar-sweetened soda
marketed for teenagers

Company B

CO2 emissions

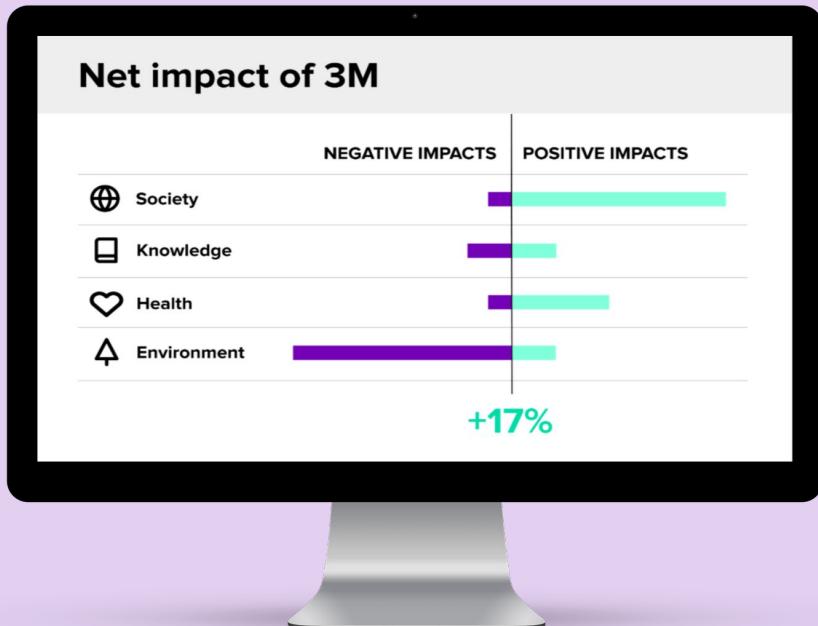

Product: type 2 diabetes treatment
programs for teenagers

**Comparable &
science-based data on
net impact of
companies is needed.**

Our mission

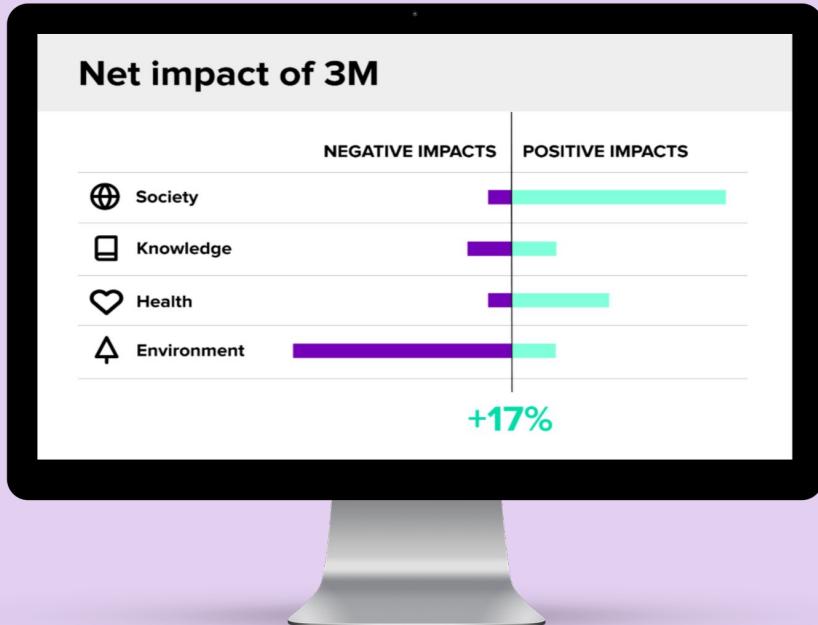

Produce comparable, science-based data about companies' net impact...

Our mission

Produce comparable, science-based data about companies' net impact...

...and make it accessible for companies' key stakeholders to use it in their decision-making

INVESTORS

"Where do I dedicate my equity i.e. which company do **I invest in**?"

EMPLOYEES

"Where do I dedicate my time i.e. which company do **I work for**?"

CUSTOMERS

"Where do I dedicate my money i.e. which company do **I buy from**?"

LEADERSHIP

"Which **strategic decisions** help us constantly improve our impact?"

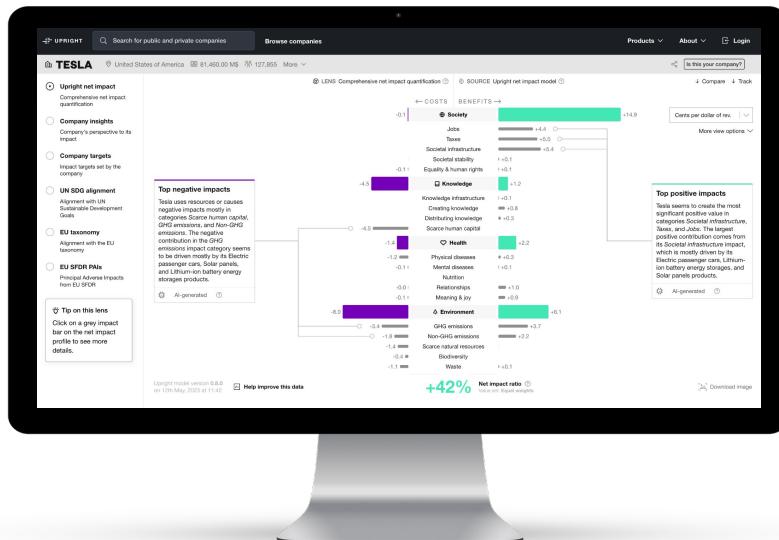

Upright in brief

Upright, a Helsinki-based technology company, is the market-leading net impact data provider for both companies and institutional investors

Upright's offering for companies

Upright provides annual **subscriptions to companies' impact data**, publicly available on the Upright Platform. Subscribers have the **right to use their impact data** in any external or internal use case on the platform and outside of it.

Typical use cases

- Validate the company's science-based net impact on the surrounding world
- Understand the drivers of the impact and utilize that information in strategic decision-making
- Amplify annual reporting (see companies like [Securitas](#), [Fiskars Group](#), [Medicover](#), and [Vattenfall](#))
- Conduct CSRD-compliant double materiality assessments
